How To Clean the Main Bathroom

- Please use gloves. There's usually disposable gloves in the black cabinet in the kitchen.
- Cleaning supplies should be under the sink in the bathroom or black cabinet just outside the bathroom:
 - use clorox powder for the toilet bowl, let it soak and then scrub before mopping.
 - use sanitizing wipes for the toilet surfaces.
 - lysol spray and striped rags under the bathroom sink for mirror and sink surfaces. Please also wipe down the full length mirror, light switches, and door knobs.
 - then use fabuloso to wash the floor.
- There should be a broom close by to the kitchen or at the front to sweep. Please also mop. Since there is not a lot of surface area you don't need a lot of soap and water in the bucket. You can fill it with the sprayer from the kitchen sink.
- After you mop please dump and spray out the mop and bucket. Then leave the mop in the shower with the bucket nearby.
- Bathroom trash can be dumped in any of the larger garbage cans in the main space.
- Please refill hand soap, also found in the black cabinet. Please make sure there are rolls of toilet paper available on the drawers or on the shelf. Please do not stack toilet paper in the caddy, the bottom roll will get ruined in a flood.
- You can also find a fresh hand towel in the black cabinet, please put that last one with the dirt rags under the kitchen sink.
- Lastly please write the date, your name, and the working group you're repping on the sheet on the back of the door.

How to Take out the Trash

General RC garbage schedule:

Tie off bags and put on curb after 8pm
Put new bags in kitchen cans and round cans

Sun	Mon	Tue	Wed	Thu	Fri	Sat
--	Garbage	--	--	Garbage	--	--
--	--	--	--	Recycling	--	--

Garbage locations	Recycling locations
• 2 round garbage bins • 2 rectangular flip-top bins • 2 bathroom garbages	• Cardboard from pantry • 2 rectangular flip-top bins ◦ (1 glass/metal/plastic + 1 paper/cardboard)

Monday Night Trash

- Only trash and large objects get collected
- Large objects are rare, but sometimes a pallet will be left near the front door
- All trash must go in bins, please put tied bags in one of three black trash bins
 - bags should not be more than 50lbs (best estimate/not too heavy)
 - the bins are located to the left of the door when exiting. Usually they're on the basement side-walk entrance (NOTE: the trash bins to the right of the door, in the little fence corral, are for the neighbors not us.)
- Please check trash in both bathrooms and both trash cans in the kitchen
 - if more than half full please empty bathroom waste bins into kitchen bins
 - please take out bags from kitchen bins if more than half full or just stinky.
- Please check the round 55 gallon trash cans usually found near the pantry shelves and lift.
- All trash cans should get a grey contractor bag from the white red and black "Grainger" box on the silver wire racks left of the front door.
- If bins are chained outside the code should be "beans"

Thursday Night Trash/Recycling

- Same as above, but recycling also goes out tonight (please take out all trash and recycling)
- Please also empty the metal/glass/plastic bin and the cardboard bin in the kitchen/library area
 - replacement bags should be either blue or clear and found in the white cabinet by the basement door
- Recycling bags do not need to go in a bin, but there may be bags in the blue bin, so please put bin at the edge of the curb if so.
- All the cardboard near the front door needs to go to the edge of the curb, please

Thanks!
