Building view

2nd and 3rd floor are residential rentals.

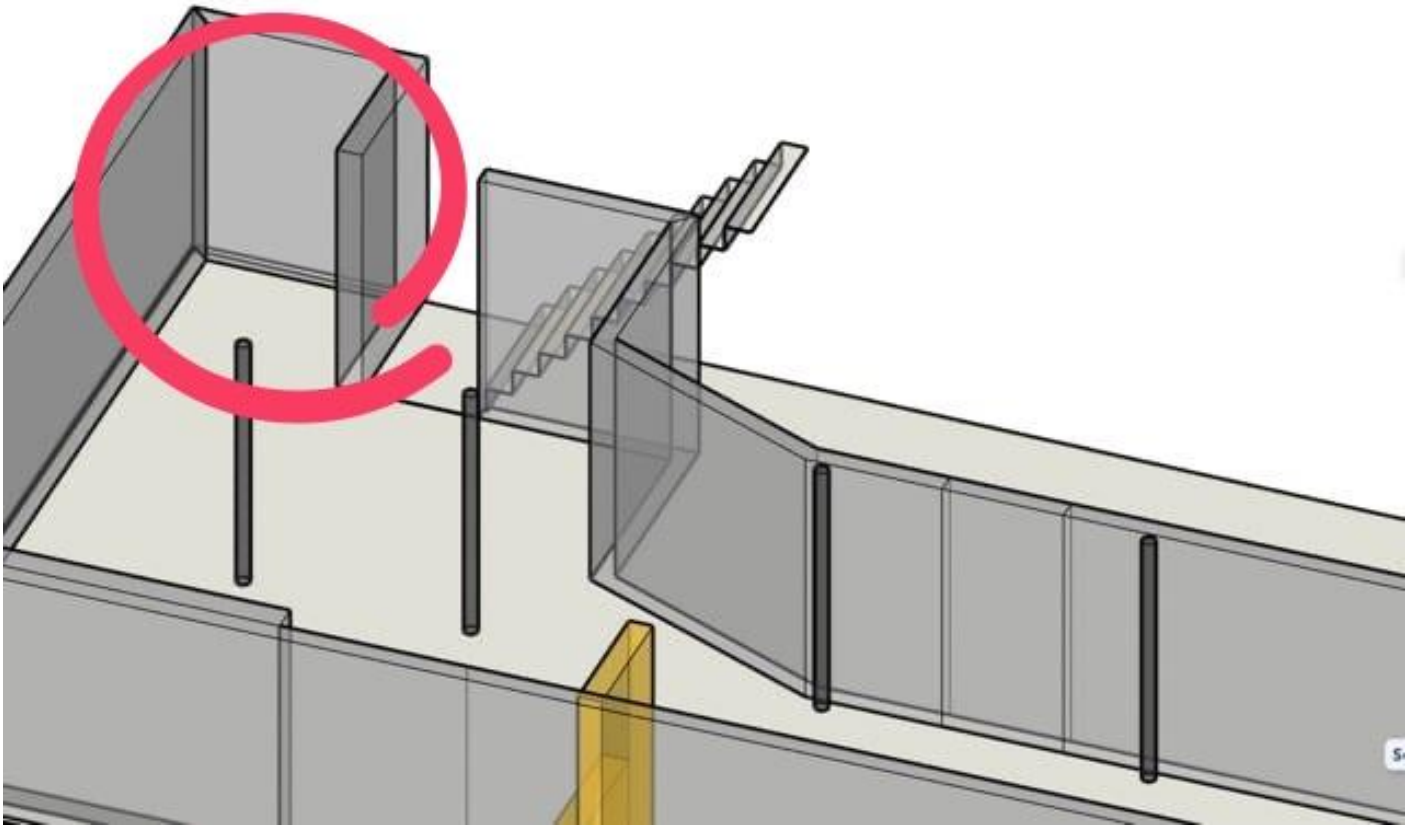

Ridgewood Commons occupies 1st floor and basement.

No information on sink/shower hookup locations for 2nd/3rd floors.

Rear of building roof is used as outdoor

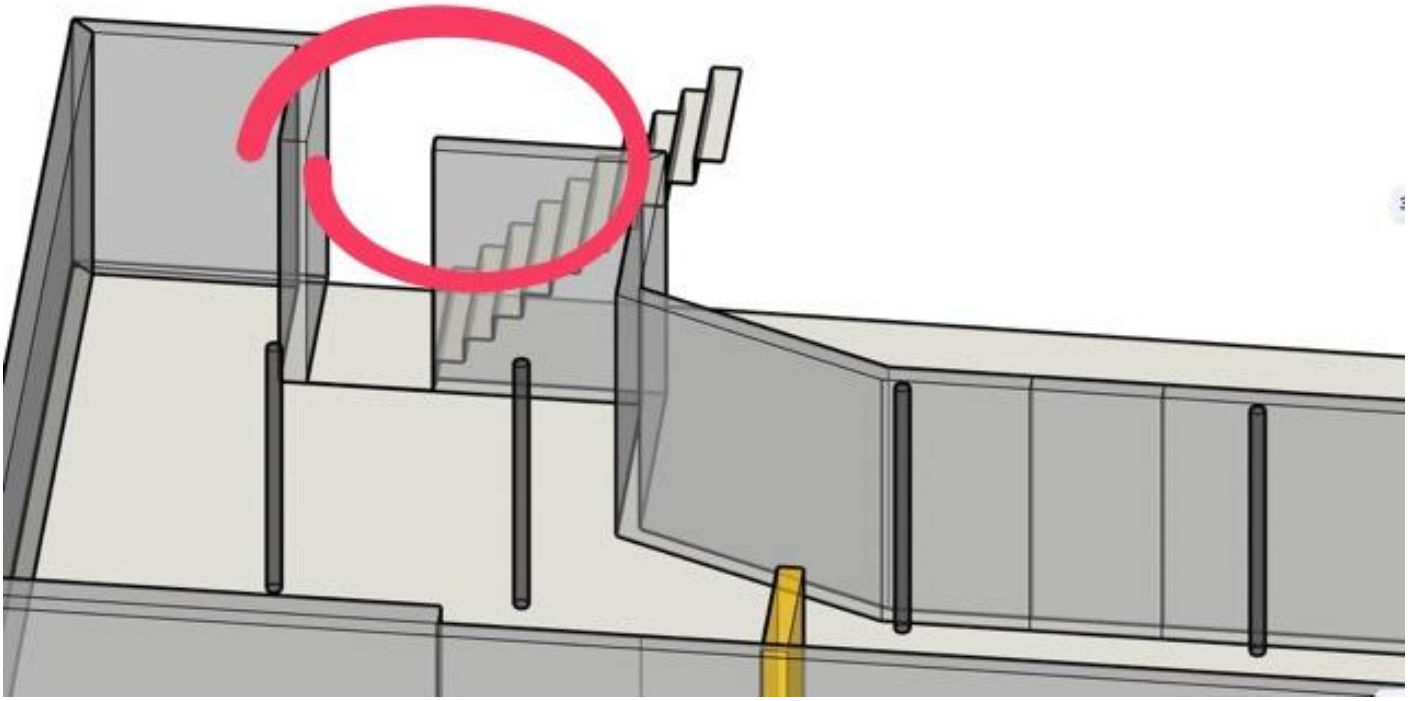

patio for 2nd floor renters.

Leftover hookup from previously installed bathroom (also has capped hot/cold supply lines nearby)

Main basement space

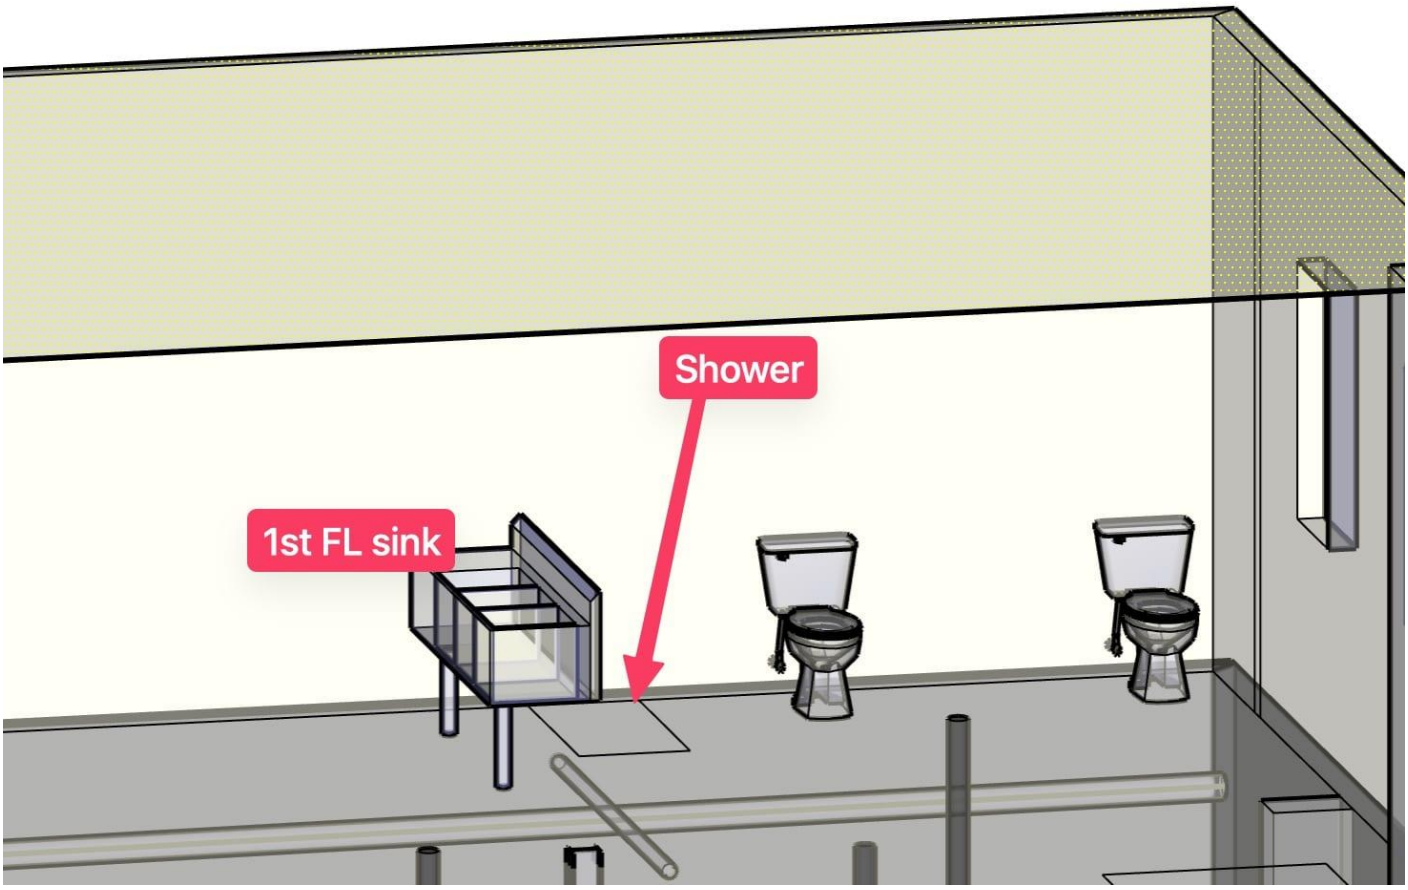

Main drainage pipe runs along wall through main space, smaller steam pipe runs parallel/above from exit of boiler room. At a certain point that steam pipe makes a right angle and crosses to center of room.

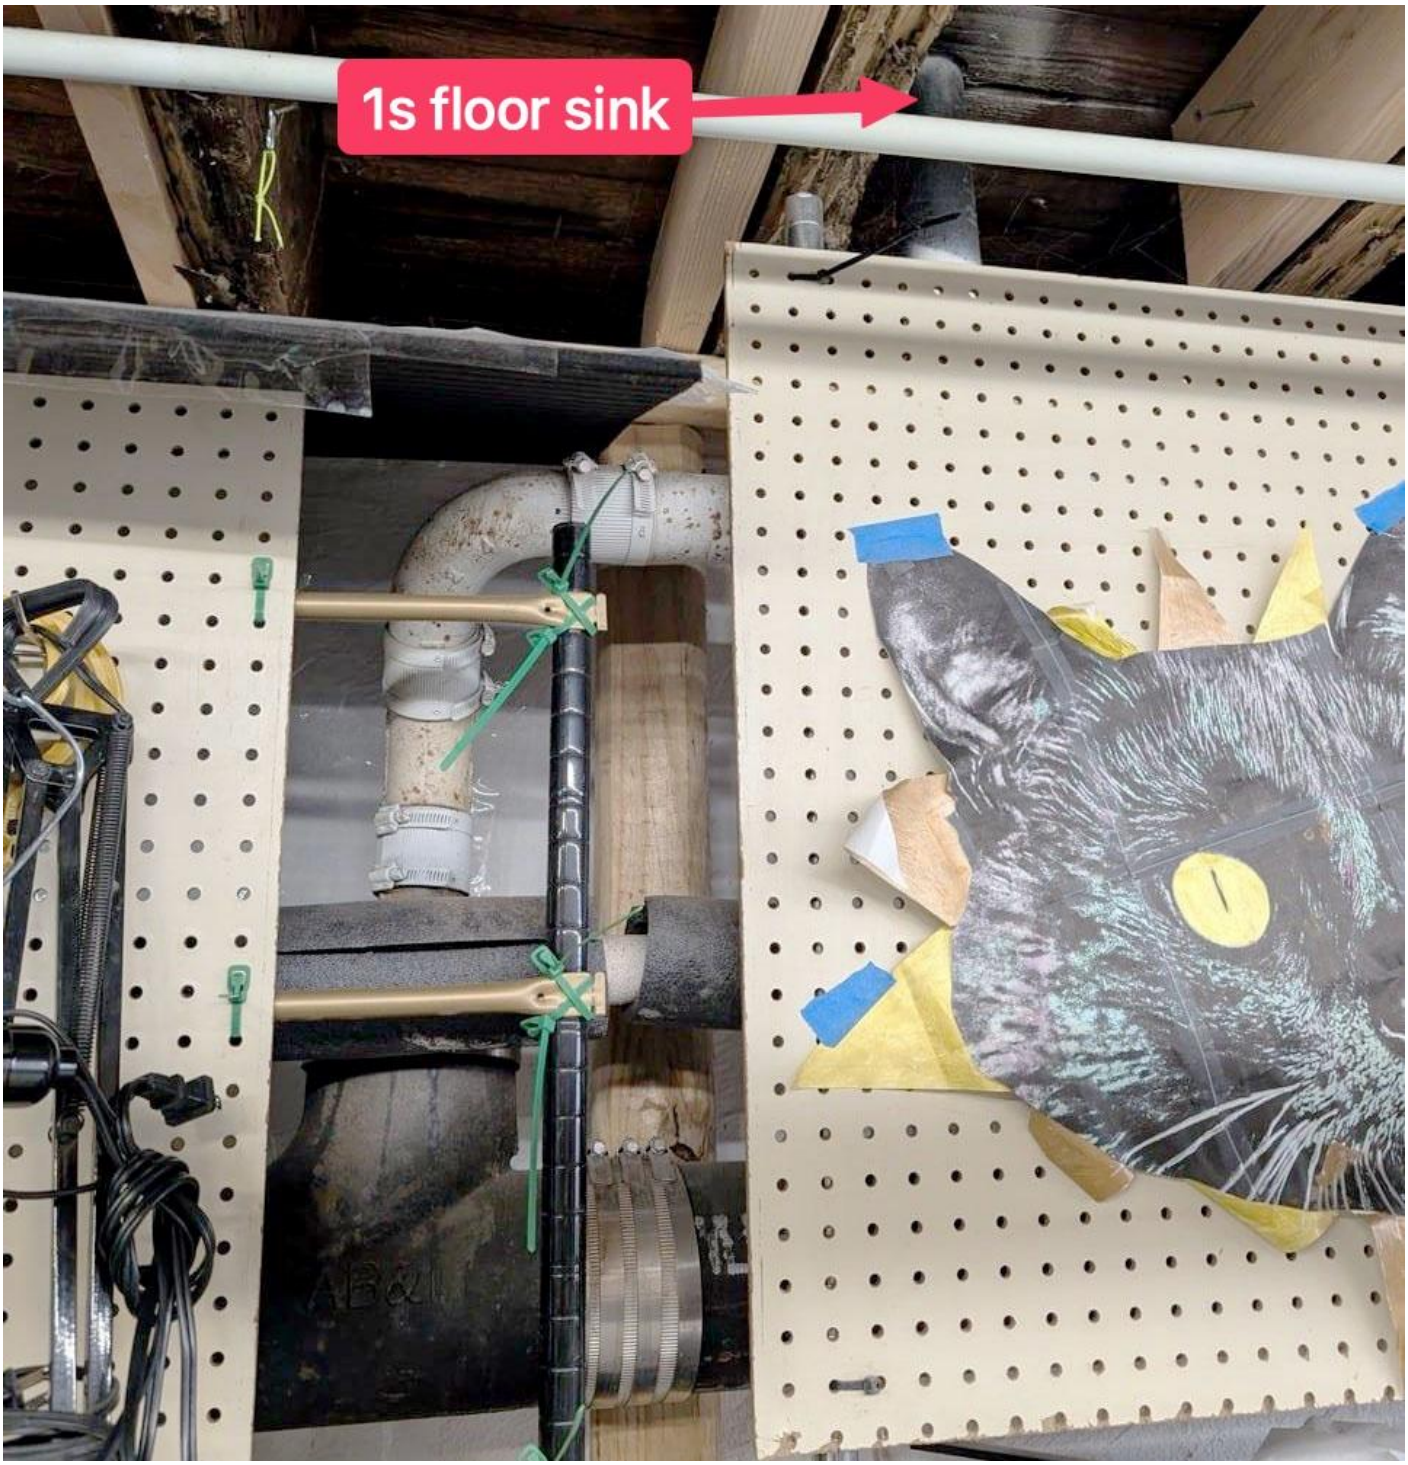

Crossing steam pipe is shown in diagram and image above, long parallel steam pipe above drainage run is not shown in diagram.
