

General RC garbage schedule:

Tie off bags and put on curb after 8pm

Put new bags in kitchen cans and round cans

Sun	Mon	Tue	Wed	Thu	Fri	Sat
--	Garbage	--	--	Garbage	--	--
--	Large trash items (up to 6 items)	--	--	Recycling Large metal/plastic items (up to 6 items)	--	--

Garbage locations	Recycling locations
• 2 round garbage bins • 2 rectangular flip-top bins • 2 bathroom garbages	• Cardboard from pantry • 2 rectangular flip-top bins ◦ (1 glass/metal/plastic + 1 paper/cardboard)

Monday Night Trash

- Only trash and large objects (wooden pallets, etc)
- All trash must go in bins, please put tied bags in one of three black trash bins
 - bags should not be more than 50lbs (best estimate/not too heavy)
 - the bins are located to the left of the door when exiting. Usually they're on the basement side-walk entrance
- Please check trash in both bathrooms and both trash cans in the kitchen
 - if more than half full please empty bathroom waste bins into kitchen bins
 - please take out bags from kitchen bins if more than half full or just stinky.
- Please check the round 55 gallon trash cans usually found near the pantry shelves and pantry fridges.
- All trash cans should get a grey contractor bag from the white red and black "Grainger" box on the silver wire racks left of the front door.

Thursday Night Trash & Recycling

- Same as above, with addition of recycling, locations listed at top of page.
 - Replacement bags should be either blue or clear and found in the white cabinet by the basement door
- Recycling bags can be put directly on curb, but if blue bin has bags in it, please put bin at the edge of the curb.
- All the cardboard near the front door needs to go to the edge of the curb. Cardboard needs to be: bagged or bundled, with tape or twine - neatly stacked inside of a box is not enough, they have said they will not pick it up.
