Programming at Ridgewood Commons

Ridgewood Commons offers regular free events that are programmed by members, but we are always open to hosting other events that align with our shared political values or offer something valuable to the neighborhood. Panel discussions, magazine launches, prose or poetry readings, skill shares, music listening sessions, and similar events are all welcome depending on time and capacity. If the event in question has no entry fee, it is eligible to be part of our public programming (and thus not subject to rental fees). There will need to be a bottomliner who is responsible for all relevant promotion and communication, along with executing or overseeing all set-up and cleaning tasks.
