

Mailto link

List subscribe mailto should look like so:

to: sympa@lists.riseup.net

subject: subscribe ridgewoodcommonsny-c-info

body can be blank

Here is a mailto that includes the basic to and subject portion, along with a body section (ignored by sympa that might serve to explain the process to the user:

Simple version:

```
mailto:sympa@lists.riseup.net?subject=subscribe%20ridgewoodcommonsny-c-info
```

HTML code:

```
mailto:sympa@lists.riseup.net?subject=subscribe%20ridgewoodcommonsny-c-

[Subscribe to ridgewoodcommonsny-c-info](mailto:sympa@lists.riseup.net?subject=subscribe%20ridgewoodcommonsny-c-info)

Body text

Should create a body field that looks like this:

This email has been prefilled with a destination and a subject line, please do not change them.

Hit "send" and this message will request a subscription verification email from the riseup.net mailing list system.

When you receive the verification email from sympa@lists.riseup.net, simply reply with a blank message

and hit send. You will then receive a confirmation email,:

and be subscribed.

Thank you!

-Ridgewood Commons

† Riseup.net provides online communication tools for people and groups working on liberatory social change. They are a project to create democratic alternatives and practice self-determination by controlling our own secure means of communications. Learn more: <https://riseup.net/en/about-us>

Este correo electrónico ya tiene un destinatario y un asunto predefinidos, por favor no los cambie.

Presione "enviar" y este mensaje solicitará un correo de verificación de suscripción del sistema de listas de riseup.net.

Cuando reciba el correo de verificación de sympa@lists.riseup.net, responda con un mensaje en blanco y presione enviar. Luego recibirá un correo de confirmación y estará suscrito.

¡Gracias!

Invites

We can invite users to the list.

So it may be relatively simple to create a form that creates an email with an invite.

e.g. form takes email input from page, and then populates request email as follows

So could be as crude as a google form that fills out a spreadsheet, and then either automatically creates invite request, or waits for a column to be filled in.

Unclear if this would violate riseup policy if it were fully automated.

Unclear if sending address needs to be list admin, or can be some other email that's been granted admin privileges.

Failed I tried using links and they either fail or require account creation:

Subscribe to Ridgewood Commons info list

Get updates by email. We'll send a confirmation message to finish signup.

[Subscribe with "wvs" url prefix](#)

[Subscribe with "sympa" url prefix](#)

[Subscribe with "www" url prefix](#)
