Motivation (why are you proposing this?)

- We need to have protocol in place for dealing with trash after Sunday dinners

Proposal summary

- Trash and recycling can't go out until Monday night, so we have to make sure we store it properly until then. Here's the details:
 - Trash and recycling get bagged and tied, then put in their respective bins at the front of the space. If there's no room in these bins, we put them in the large chest and make note of this in the appropriate chats.
 - Compost gets put in a black liner bag (big black bag), tied, and put in the compost bin.
- DON'T LET BAGS GET TOO HEAVY! Keep them around 25 lbs max. Not everyone can lift that much, and DSNY will leave the bags on the street and fine us if they're super heavy.

Details

Background info

Trash has not been dealt with uniformly

Group(s) this proposal will affect

Sunday Dinners, Pantry

Labor required

Lifting up to ~40 lbs (ideally less)

Individual or group doing labor

Sunday Dinners primarily, Pantry if dealing with compost after dinner crew leaves

Money required

none

Proposal Description (and variations)

Write a detailed proposal description. If there are variations for people to choose between, list those as well

A) Cute name for a specific proposal

Sunday Night Trash Protocol

B) Cute name for a specific proposal

uhhh

C) Cute name for a specific proposal
